SOUND OF MADNESS

Sound of Madness a new partyconcept by Rige presents a Peppermill Reunion and SRB Birthday Party on December the 27th. This party is going back to her old roots but the only problem is that the Peppermill has been closed down for a couple of years now. We have decided to search for a new venue with the same energy has the Peppermill We proudly present the first editon of Sound of Madness at the Pompgebouwen in the city of Brunssum. Afters years of stunning parties in the Peppermill we think that this kick ass party area will give us the same energy as the old days. You can expect a kick ass light show and crunchy kick drums to create a perfect atmosphere. So if you like the harder styles we think this is the time for you to party with us.

Sound of Madness is a unique party only for the real hardcore and rave gangsters. There will be two different areas with thrilling line ups. At the Peppermill Rave Area 1 you can expect artists who have proved in the past they know how to move the crowd. In the SRB Birthday party area 2 you can already guess who will play extremely loud and faster music. The one and only SRB will perform some uptempo and terrorizing tracks together with some of his extreme hardcore collegues. To celebrate his birthday we will take care of a fun atmosphere where the first 100 visitors will receive a free T-shirt by the man himself.
