Wann	Samstag, 16. Februar 2013, 22:00 Uhr - 06:00 Uhr

Beschreibung

On February 16, it is time for a new edition of Icon, the Cyndium event that is always centered around 1 particular artist or act . After DJ Activator, Frantic Freak and Dr. Peacock, this Icon will be entirely in the spirit of a duo that is known by many hardcore fans for their thick productions and banging sets: The Outside Agency. This pair, consisting Eye-D & DJ Hidden, has been around for quite a while now and with releases on labels such as Mokum Records, Hong Kong Violence and Enzyme VIP, has always been present in the top of the scene.

Since 2003, they also have their own label Genosha Recordings, on which you can hear much of the raw industrial sound that has made them so popular with the general public. The fact that their musical taste goes beyond Hardcore can for example be told by the frequent use of breakbeats, and a tour along their releases over the years shows that this duo has a lot of variety to offer.

The two men will display their diversity at Icon during an 8 hour set! They will begin the evening with Electro and then take the visitors on a musical journey past (among others) Drum & Bass, Oldschool, Early Hardcore and of course Industrial Hardcore. Not only musically, but also visually everything will be completely TOA!

Rhone Warehouse

This Icon will be the first in a new location, Rhone Warehouse in Amsterdam. A great underground location where the organization can guarantee a better and louder sound and where the party can go on an hour longer than before!

Tickets

The organization would like to tell you that the previous editions of Icon have gone sold out, and also this edition ticket sales are going very fast. So if you want to be there this time by any means, be quick to get your tickets!
